

## Care and Cleaning Guide

**Day-to-Day Cleaning** -- Remove ordinary dirt and smudges with mild soap and water. A 10:1 ratio of water to bleach solution may be used as a disinfectant. Rinse the surface with clean water after disinfecting. Dry with a soft, lint-free cloth or towel. The use of conditioners or protectants is not required nor recommended for use on Sta-Kleen Silicone upholstery – its cleanability is permanent and won't wear out.

**Stain Removal** --Upholstery protected with Sta-Kleen Silicone is resistant to most common stains. To keep your furniture looking new, stains such as a ballpoint pen can be dry-erased with a clean, lint-free cloth. Gently rub the area until the stain has been removed. Wet or gooey stains such as food stains (e.g., ketchup) or topical stains (e.g., antiseptics, lotions, and creams) should first be wiped off with a clean cloth or sponge, then follow the instructions above.

**Stubborn Stains** -- If a ghost stain remains, apply a small amount of household rubbing alcohol (91% isopropyl alcohol) to a clean, lint-free cloth and rub the stain until it has been removed. Rinse with a clean, damp cloth, and go!

**Blue Jean Dye Resistance** - Sta-Kleen Silicone creates an invisible barrier to keep the indigo dye from transferring to the upholstery. However, as there are many types of both natural and synthetic dyes used in coloring clothing, we cannot guarantee there will never be any dye transfer. In the unlikely event that any blue jean dye transfer occurs, follow the Stubborn Stains cleaning instructions above.

**Chemical Cleaners - The following chemical cleaners/disinfectants have been approved for use on Mitchell products provided the manufacturers' directions are followed.**

Bleach 10:1  
Accel PREvention  
Accel TB  
BirexSE

Germicidal Disposable Wipes  
Sani-Cloth HB Germicidal Disposable Wipes  
Super Sani-Cloth Germicidal Disposable Wipes  
Virex® II 256  
Virox™ 5

**DISCLAIMER:** This guide addresses the care and cleaning of Sta-Kleen Silicone. The care and cleaning methods covered in the guide will provide the best protection for these products. However, not all stains can be removed, especially if the stains are not addressed immediately. This information does not relieve the user from the responsibility for the correct and safe use of the product and cleaning methods. The Mitchell Group is not responsible for any defect caused by the use of cleaning solutions not included in this guide. In addition, the product warranty will be voided if any other cleaning methods are used on this product.
