Cleaning and Disinfecting

Remove ordinary dirt and smudges with mild soap and water. A 10:1 ratio of water to bleach solution may be used as a disinfectant. Rinse the surface with clean water after disinfecting. Dry with a soft, lint-free cloth or towel. We recommend that you use Clorox Healthcare products VersaSure wipes and Hydrogen Peroxide wipes to disinfect Sta-Kleen Performance products in commercial settings.

Sta-Kleen Performance is a compatibility partner with Clorox Healthcare.
